General Plan "Amendment 2":

Project Development Plan for Construction

Resolution
Malibu Creek
SP General Plan

The resolution was adopted by the Commission with Commissioners Berk, Norris, and Whitehead voting AYE, and Commissioners Egizi and Wald voting NAY. Before the vote, Commissioner Egizi asked that verbage be included in the resolution to require the Department to work in close cooperation with the Chumash Indians in all development phases and asked that the material from Malibu Lagoon not be used. Director Cahill stated, for the record, that the Department would not use land fill from Malibu Lagoon. He stated that the Department had an agreement with the Chumash people for consultation, that we would hire a Native American to be present at any time archeological investigation was being done. There had been, and will continue to be, a lot of discussion and negotiation with the Chumash on issues.
